

EASY GARDEN FENCING

– CLASSIC WOODGRAIN

Our premium fencing system features durable composite flat fencing boards made with advanced co-extrusion technology, offering a wide range of color options for customized style. The system includes sturdy aluminum posts and a comprehensive top and bottom rail kit for secure installation. Designed for longevity and low maintenance, the composite boards resist weather, pests, and fading, making them ideal for residential and commercial outdoor spaces.

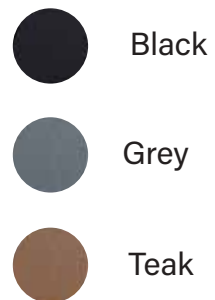

- Wide variety of color options of fencing boards.
- Robust aluminum posts for enhanced stability and corrosion resistance.
- Easy installation with integrated top & bottom rail kit.
- Low maintenance, weather-resistant, and long-lasting performance.

— MODERN SLATTED

Elevate your property with our contemporary fencing system, designed for the modern home. The core of this system features co-extrusion slat boards that offer unparalleled durability and a consistent, scratch-resistant finish. Complemented by robust aluminum posts and a complete top & bottom rail kit, this structure provides a clean, minimalist aesthetic built to stand the test of time. It's the perfect blend of bold style and low-maintenance security, creating a striking boundary that enhances your outdoor living space for years to come.

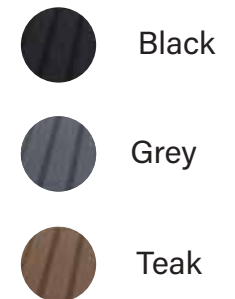

- Clean lines and a minimalist profile create a striking contemporary aesthetic for any property.
- Engineered for superior strength, weather resistance, and a long-lasting, flawless finish.
- The tightly arranged slats provide a solid barrier, offering complete seclusion and peace of mind.

— DIAMOND TRELLIS

An aluminum trellis is the premier choice for transforming ordinary fences into elegant, living architecture. Crafted from high-grade, powder-coated aluminum, it offers exceptional durability that resists rust, corrosion, and weathering, ensuring a pristine appearance for decades with minimal upkeep.

H:30

-Trellis 30:

A height of 30 cm can replace two fencing boards.

- **Durable & Low Maintenance:** Made of rust-proof, powder-coated aluminum that withstands all weather without warping or pests. Needs only occasional rinsing—no painting or repairs.
- **Strong & Easy to Install:** Lightweight yet sturdy enough to support climbing plants and vines. Simple to mount onto any fence.

— SERENE PRIVACY TRELLIS

Elevate your fence. More than a trellis, it's the final touch that unifies your outdoor style and enhances your private sanctuary.

- Customizable Color Contrast for Instant Curb Appeal
Choose from black, teak, or grey to create a stylish two-tone fence design. This simple color shift at the top transforms a plain fence into a coordinated landscape feature, boosting your home's exterior aesthetics immediately.
- Enhanced Privacy Without Sacrificing Style
Adds 30cm of solid, opaque height to your fence for increased seclusion, while the clean lines and integrated color break keep the look modern and intentional—not bulky or makeshift.

– CLASSIC WOODGRAIN GATE

Its powder-coated aluminum frame provides a sturdy outline, filled with the warm, wood-grain texture of WPC boards. Every component is designed for compatibility and longevity, resulting in a gate that offers superior performance, a flawless fit within fencing systems, and a consistently pristine appearance.

- **Hybrid Durability:** Combines the rust-proof strength of a structural aluminum frame with the fade-resistant properties of solid WPC boards. Built to withstand the elements without warping, rotting, or corrosion for a lifetime of reliable performance.
- **Modern Design, Minimal Upkeep:** Features clean architectural lines and a two-material aesthetic that elevates your curb appeal. Enjoy the rich, wood-like visual of the WPC boards without ever needing to stain, seal, or paint them.
